

## Venue

The meeting venue is located in the heart of Québec's city center, minutes away from the legendary Old city and the old port of Québec. The Gare du Palais (trains and intercity buses) is only 1 km away. International Jean-Lesage Airport (YQB) is at 16 km.

Overlooking the mighty St. Lawrence River from the top of Cap Diamant, Québec City remembers with pride that here, the word "history" has a meaning. The Old city of Québec was listed as a UNESCO World Heritage Site in 1985.

Cradle of French civilization in North America, the city was founded in 1608 and is today a busy seaport, an important center of services and research, a leading cultural city and, of course, the capital of Quebec. It is also one of the safest cities in America.

Nearby cafes, restaurants, parks and attractions are all yours to discover.

We invite you to learn more about Québec at [www.quebecregion.com](http://www.quebecregion.com)

# International Meeting on Advanced Materials and Processes for Environment, Energy and Health

## PAEES-1

Québec, Canada, 14-16 october 2015

### Institut national de la recherche scientifique (INRS)

The PAEES international meeting aims to be a unique forum where leading scientists, researchers and engineers exchange and learn about the latest scientific and technical advancements on various aspects in the fields of advanced materials and processes for environment, renewable energies and health applications.

This international event is organized by scientists for scientists working in different R&D environments (university labs, institutional/governmental labs, and industry). It is also highly recommended for policy makers in the fast-growing sectors of sustainable environmental, renewable energies and advanced health care.

The meeting is intended to be a balanced mixture of fundamental and applied research on the different themes to be dealt with through plenary lectures, oral presentations and poster sessions.

## Important dates

- End of the call for papers: **June 15th, 2015**
- Notification to authors of acceptance: **June 22nd, 2015**
- End of pre-registration: **June 29th, 2015**
- Registration deadline: **September 25, 2015**

## Themes

The following themes have been selected for discussion in advanced processes applied to the environment, renewable energy and health.

- 1 Treatment and decontamination of water, air and soil** (VOCs, POPs, potable water, wastewater, soil rehabilitation ...)
- 2 Sustainable energy production and transformation** (solar energy, biomass, hydrogen, ...)
- 3 Advanced materials for catalysis, biocatalysis, photocatalysis, energy and health**
- 4 Commercial applications and prospects of development of these advanced processes**

Both official languages of Canada (English and French) can be used in the meeting

## Scientific Committee

- **Prof. Patrick Drogui**, INRS, Canada, Chair
- **Dr. Didier Robert**, Universités de Lorraine et de Strasbourg, France, Co-Chair
- **Prof. My Ali El Khakani**, INRS, Canada, Co-Chair
- **Prof. David Chatenet**, INRS, Canada, Co-Chair
- **Prof. Trong-On Do**, Université Laval, Canada
- **Prof. Serge Kaliaguine**, Université Laval, Canada
- **Dr. Sylvie Lacombe**, Université de Pau, France
- **Prof. Rajeshwar D. Tyagi**, INRS, Canada
- **Prof. Satinder K. Brar**, INRS, Canada
- **Dr. Gerardo Buelna**, CRIQ, Canada
- **Prof. César Pulgarin**, École Polytechnique Fédérale Lausanne, Suisse
- **Prof. Bini Dongui Kouame**, Université Lorougnon Guédé, Côte d'Ivoire
- **Prof. Mohamed El Azzouzi**, Université de Rabat, Maroc
- **Prof. Hubert Cabana**, Université de Sherbrooke, Canada
- **Prof. Albert Trokourey**, Université de Cocody-Abidjan, Côte d'Ivoire
- **Prof. Benjamin Yao**, INP-HB, Yamoussoukro, Côte d'Ivoire
